Introduction to Bioinformatics
7th practice
Phylogenetics

During this session you will practice the phylogenetic analysis. If the R is not available on your computer, you may use our RStudio server available on the google cloud.
The server is available on the following link:
  http://130.211.73.83:8787/

Where the **username** is you **neptun id**, and the password is **Bioinfo2016.**
This is a unix server and all the necessary data are available in your home directory on the following path: /home/<your neptun id>/phylo/.
It is recommended to set the working directory to that folder using the following R command:

```
setwd('/home/<your neptun id>/phylo')
```
